PROFESSIONAL SUMMARY

Results-driven Full Stack Developer with hands-on experience in building scalable web applications using React.js, Node.js, and MongoDB. Currently working as an intern at HCL Aftermarket Cloud, gaining real-world experience in SQL, database design, and enterprise systems. Strong foundation in data structures, REST APIs, and modern web technologies with a passion for building efficient and user-friendly applications.

TECHNICAL SKILLS

- Languages: Java, Python, JavaScript, SQL
- Frontend: HTML5, CSS3, React.js, Bootstrap, TailwindCSS
- Backend: Node.js, Express.js, REST APIs
- Database: MongoDB, MySQL, MS SQL Server
- Tools: Git, GitHub, VS Code, Terminal

WORK EXPERIENCE

Intern – HCL Aftermarket Cloud (Formerly Quest Informatics)
Feb 2026 – Present

- Wrote and executed SQL queries for data retrieval, reporting, and analysis in enterprise systems
- Assisted in database design, normalization, and schema structuring for efficient data management
- Optimized database queries to improve performance and reduce execution time
- Worked with relational databases and handled structured data in real-world applications
- Collaborated with team members in debugging, testing, and maintaining database systems

PROJECTS

Full-Stack Airbnb Clone

- Built a full-stack Airbnb-style web application allowing users to search properties, view listings, make bookings, and manage accommodations.s
- Developed backend services using Node.js, Express.js, and MongoDB (Mongoose).
- Implemented authentication, authorization, and CRUD operations for property listings.

Camouflaged Object Detection

- Developed a deep learning model using YOLOv8 and Python for detecting camouflaged objects.
- Performed dataset preprocessing, training, and evaluation using precision, recall, and mAP metrics.

Multiple Disease Prediction

- Built a machine learning model to predict diseases based on symptoms using Python.
- Performed data preprocessing, model training, and prediction evaluation.

EDUCATION

Channabasaveshwara Institute of Technology, Tumkur
B.E. in Computer Science Engineering CGPA: 8.3/10 | Aug 2022 – May 2026

CERTIFICATIONS

- Data Structures and Algorithms (Java) — Apna College
- Full Stack Web Development — Apna College
- Generative AI Leader Track — Google
